

Management Reporter for Microsoft Dynamics GP 2010

HOURS	COST
16	\$998.00

A two day overview of the architecture, features, and benefits found in Management Reporter and how it differs from Microsoft

FRx. This addresses the Report Viewer and Report Library as well as the new features in the Report Designer.

Management Reporter is the replacement product for Microsoft® FRx® and has many new features aimed at improving functionality and performance.

Audience

Current Microsoft FRx Users

At Training Material Completion

The learner will be able to:

Describe the Management Reporter architecture and how it differs from that of Microsoft FRx

Explain the new features of Management Reporter and see what has been added to improve on Microsoft FRx

Prerequisites

Attendees should understand financial reporting and basic report design concepts.
