Thur | Sept 22 | 2011  
Greenwood Inn & Suites  
3515 26 St. NE, *Calgary*

## Information Booths

### ETELLIGENT SOLUTIONS

Be sure to check out our booth where our consultants and staff will answer all of your toughest questions. Learn a few tips and get to know us better!

### EONE

eOne, the authors of SmartList Builder and eXtender, develop tools that help you configure Dynamics GP to work exactly how you want. SmartConnect provides users with an engine for both automation and integration, and eXtender Enterprise allows for applications to be built in without writing a single line of code.

### MC<sup>2</sup>

MC<sup>2</sup> is a company dedicated to developing add-on business applications, focusing on Dexterity add-on modules that integrate, for Dynamics GP users.

### VIVID REPORTS

Vivid Reports is a powerful financial reporting and forecasting product designed to quickly and easily deliver the reports and information that you need. It will increase the efficiency of your reporting and budgeting process while enhancing your analysis capabilities and insight.

### PAPERSAVE

PaperSave is a Microsoft Gold Partner offering seamlessly integrated paperless workflow and electronic document storage for Dynamics GP. PaperSave is a CFMD solution with a SharePoint foundation allowing for comprehensive enterprise content management across your organization.

### ROCKTON

Since 1999, Rockton has delivered simple, cost-effective enhancements that save time and streamline work processes in the Dynamics GP environment. Their high-quality products come with outstanding service, support, and a smile.

### REPORTING CENTRAL

Reporting Central features the Closer: the only tool that automates the process of reconciling sub-ledgers to the GL. The Closer not only identifies out-of-balance transactions, it explains their root cause. With the push of a button, the Closer will identify any errors in your company controls.

### BINARY STREAM

Binary Stream Software has provided Dynamics GP users key vertical and enterprise level functionality. Offering over 15 products that are easy to adopt, train, use, upgrade and support, you can use our industry experience to optimize your business processes.

### ACCOUNTABLE SOFTWARE

Accountable Software, the original developer of SmartLists for Dynamics GP, features AnyView IDS—which delivers data to web applications, Microsoft SharePoint, Microsoft Business Portal, SQL Reporting Services, and even Excel. AnyView IDS collects, organizes and displays your information how you want to see it.

# Morning

## REGISTRATION, 7:30AM - 8:00AM

If you get up early just one morning this year, make this the one! Here's a great chance to network, enjoy some breakfast fare, and grab yourself that ever-important cup of coffee and wake up for the main session ahead.

## MAIN SESSION, 8:15AM - 10:45AM

In the main session we will start out by telling you what's new at ESI and with Dynamics GP. Most importantly, we will cover everything you need to know about the new R2 release from a high level. Furthermore, we will tell you all about our new hosting (cloud) options for Dynamics GP and CRM. With our hosting, you can eliminate the need for additional IT staff and server space.

## THIRD PARTY SPEED DATING, 11:00AM - 12:00PM

Get to know our third party partners, and let them show you how their enhancements may help increase efficiency, and save costs, in your workplace. The best part is, you get to know each partner in 5 minutes or less. This will give you a good overview of which booths you may want to visit over the course of the day.

# Afternoon

## LUNCH, 12:00PM - 1:00PM

Enjoy some good food, great tunes, and get to know our consultants a little better. Here's a chance to check out the Etelligent booth, or any of the third party enhancement booths.

## BREAKOUT SESSIONS 1, 1:00PM - 1:50PM

Take your pick of one of these three sessions

**Management Reporter:** Learn how this real-time financial reporting application empowers you to quickly and easily create, generate, secure, and publish financial statements, such as P&L statements, balance sheets, and cash flow reports. Also learn how MR differs from FRx, and in what ways they are the same.

**SharePoint:** Come see how this web browser-based tool can improve your organization's document/records management and collaborative efforts, including your workflow, social networking, enterprise search and business intelligence needs.

**Word Templates:** Learn about additional word templates and new BI features releasing with Dynamics GP 2010 R2.

## BREAKOUT SESSIONS 2, 2:00PM - 2:50PM

Take your pick of one of these three sessions

**SharePoint:** See above

**Tips and Tricks:** Come to this fast-paced, high energy session and learn Dynamics GP tips for Financials that you'll want to implement immediately. This popular session guarantees to teach you something new--for even advanced users. This session will cover topics in the range of Payables, Receivables, General Ledger, Bank Reconciliation and Fixed Assets.

**ESI Tool-kit:** The tool-kit provides added functionality by enabling data point integrations between Dynamics GP and your other ERP products. Includes easy-to-use data import templates for Excel, and layouts for tab delimited text files.

## CLOSING, 3:00PM - 3:30PM

We are ending a little earlier in the day so you have time to get home in good time. Please stay till the end as we will announce draw winners and also have a Wine and Cheese reception.
